

The Learning Design Canvas

Session name

Educator's name

Date & iteration

Educators' Tools

What space do you need? Which channels, mediums, tools or materials?

What do you still need to prepare?

What are your personal needs? From whom do you need support?

WHAT IF

What if participants could use the session experience in daily life?

How can we support the transfer?

Facts, feelings, findings, future

HOW

How can participants apply the knowledge?

What activities or games do you plan to do? How can you leave space for experimentation and creativity?

Session Basics

Who are the participants?

What is this session for?

What are the WOW! moments?

WHY

Why do we need this session?

How do you introduce every individual, the topic and yourself? How do you come to eye-level?

WHAT

What do you need to know?

How do you bring this knowledge to the participants? How do you ensure optimal pacing?

Participants' Needs

What are the expectations from different stakeholders? Individual, interpersonal, organizational, community, public

What do the participants need? How do you gather their needs?

Learning Goals

How can participants be involved in goalsetting?

What goals do you want to achieve in this session?

Knowledge, comprehension, application, analysis, synthesis, evaluation

Evaluation

How can you measure if your learning goals are achieved? What about long-term learnings?

How can you ensure an open feedback culture during and after the session?
